

DMS FOOD IMPORTS

DO MORE SALES

Speaking your language; Understanding your needs!

Greetings from DMS Food Imports, a leading supplier of specialty, commodity, and hard-to-find food products. Our chief goal is to provide our clients with superior quality, third-party-certified products at competitive prices.

We understand the importance of quality and value, which is why we travel to visit and qualify our suppliers. We have long-term partnerships with most of them and take responsibility for both quality control and quality assurance. Our suppliers are certified by BRC, SQF, ISO, Kosher, and Halal (where applicable).

Our supply chain is exceptional, utilizing some of the best shipping companies to save you money and time. We understand the importance of logistics and aim to be your trusted partner in the procurement of food products. We look forward to the opportunity of serving you.

All products are labeled with our brands or your private label. In addition to our current catalog, we also have the ability to custom create a product under your specifications. We are small enough to be flexible but big enough to handle your business. You can always speak to an owner. If working with one of our brokers, you will never pay more for that service.

We offer a number of Kosher marks depending on the product and your preference/need. Our philosophy is to run a lean, mean and inclusive company. We are at your service 24/7. Call us for a quote! Try us for the best products, value and guaranteed superior service!
